

FOOD ALLERGIES/SPECIAL DIETARY NEEDS

The Governing Board desires to prevent exposure of students to foods to which they are allergic and to provide for prompt and appropriate treatment in the event that a severe allergic reaction occurs at school.

The Superintendent or designee shall develop guidelines for the care of food-allergic students. Such guidelines shall include, but not be limited to, strategies for identifying students at risk for allergic reactions, avoidance measures and other means to manage allergies, education of staff regarding typical symptoms, and actions to be taken in the event of a severe allergic reaction.

Parents/guardians shall be responsible for notifying the Superintendent or designee, in writing, regarding any food allergies or other special dietary needs of their child in accordance with administrative regulation.

Students with serious dietary needs that qualify as a disability under Section 504 of the federal Rehabilitation Act or the Individuals with Disabilities Education Act shall be provided reasonable accommodation or services, as appropriate, in accordance with his/her accommodation plan or individualized education program.

Students shall not be excluded from school activities based solely on their food allergy.
