

City of
SANTA CLARITA
TRANSIT

The City of Santa Clarita continually seeks ways to **GO GREEN**. Therefore, Santa Clarita Transit has reduced the number of paper schedules printed. Accordingly, we have reduced the number of schedules delivered to your site.

To offset this reduction, Santa Clarita Transit has been working to upgrade and enhance our technology. Now, instead of using a printed bus schedule, transit patrons have a few other ways to access up to the minute arrival information as well as schedules electronically. They include:

- Various high use bus stops throughout the valley are now equipped with either a bus finder (blue box mounted on the bus stop pole) or an LED sign which shows arrival times of buses at that stop.
- Schedule and arrival information can also be found on our mobile site: **m.santa-clarita.com**. Simply enter the stop ID number (found on the bus stop sign pole) into our application and our system will provide you with schedules and actual arrival times specific to that stop.
- In early 2012 QR codes (see right) will be installed at every bus stop as well. You will get same schedule and arrival information simply by scanning the QR code with your smartphone.
- And finally, we do provide our schedules on our website **santaclaritatransit.com** for download and printing.

Visit us online at santaclaritatransit.com or call 295-6300 with questions.
