

YEAR-ROUND SCHEDULES

The Governing Board believes that a year-round school schedule may reduce loss of student learning over vacations as well as provide an alternative calendar to meet students and family needs.

Before approving a year-round program and/or a change to multi-track in any district school, the Board will consult with certificated and classified employees of the school, parents/guardians of students who would be affected by the change, and the community at large. Such consultation will include at least one public hearing.

The Superintendent or designee will develop a year-round schedule for any school selected or approved by the Board for year-round schedule. The schedule will specify the number and length of instructional and vacation periods, and will be on a single track schedule.
