

Insurance Information

The technology fee includes a four-year insurance plan for your student's Chromebook. The District will repair or replace damaged equipment resulting from normal use. We have partnered with Technology Resource Advisors to provide your student with the coverage outlined below. Repair costs for damage not covered by insurance will be added to the student's fee balance.

If a student's Chromebook is inoperable, he or she must report to the Technology Student Help Desk in the library during periods 1-7. The school has a limited number of spare devices for use while the student's Chromebook is repaired or replaced. A student may not opt to keep an inoperable or damaged Chromebook to avoid doing class work. The repair turnaround time is 7 – 10 days.
