## **CBC SERVICE PROGRAM TRANSPORTATION PERMISSION**

CBC service opportunities often occur at off-campus sites. Though many students are able to provide their own transportation as they have their own personal vehicles, this is certainly not the case for all students. Because we believe in the importance of our service program, we want to ensure safe access to and from service sites for those students who are unable to provide such transportation on their own.

For this reason, we arrange student carpooling to and from service sites. This form is intended for parents to give their consent to this program. If your son can provide transportation to other students, please provide your consent below. If your son requires transportation, please check all means of transportation by which you are comfortable providing your consent below. Once this form is submitted, we will hold it on file indicating your permission has been granted for all service opportunities that your son elects to take part in unless (or until) you indicate otherwise.
