

America's Healthiest Schools— **National Award Application Guide**

This document will help you navigate the Healthy Schools Program Assessment and National Award Application.

Here are a few tips to get you started:

When reviewing this guide, divide it into modules and reference the **“People Who Will Likely Know”** column.

These are the people in your school or district who may have the answers to help you accurately complete the assessment and collect evidence for the application.

1

Create an electronic folder on your desktop. Begin collecting **“Award Application Evidence”** in advance, saving it in the folder as you go. When the application opens in the fall, you'll be ready! For further organization, create a folder for each module.

2

Save this document in your folder. Use the **“Notes”** section to document award evidence, keep track of what evidence is complete, and to record what still needs to be collected, etc.

3

Notes: An answer of “3” qualifies a school for a level except where otherwise noted i.e. Bronze (2). Questions marked with an * may be answered at the District Level and are part of the District Assessment. Questions marked with an FR are components of the Final Rule on Local Wellness Policies.
