

URGENT ALERT

ACT Sub-scores and 4-Year Louisiana Public University Admissions

Did you know that beginning fall 2014 ACT sub-scores will help to determine if a student may gain admission to a four-year public Louisiana university?

All colleges and universities require minimum ACT composite scores for admissions. However, it is important to understand that a minimum ACT English AND Math sub-score is required for a student to qualify for college level coursework at a four-year public institution in Louisiana. Students who do not meet the minimum English **AND** Math ACT sub-score requirement will require developmental coursework, therefore making them ineligible for admission.

Minimum required ACT Sub-scores

ENGLISH
18

MATH
19

It is also important to note that:

- ⇒ Universities can mix and match ACT composite and sub-scores from multiple tests to determine whether an applicant meets the admission requirements.
- ⇒ Eligibility is based on the highest ACT composite and sub-scores.
- ⇒ Students can view their ACT composite and sub-scores by logging into Louisiana Connect!

Students who do not meet ACT sub-score requirements can:

- ⇒ Retake the ACT test
- ⇒ Enroll in dual-enrollment courses at a local community college to complete developmental coursework.
- ⇒ Attend a community college after high school until eligible to transfer to a 4-year Louisiana institution by successfully fulfilling transfer admissions requirements.
