

Free Community Health Screening Are You at Risk for Heart Disease?

Offered by the Heart & Vascular Center at MacNeal Hospital

Risk Assessment includes:

- ◆ Mini-paper survey to determine your risk factors for heart disease
- ◆ Blood pressure check
- ◆ Body Fat % test
- ◆ Body Mass Index Calculation

When: First & Third Monday
of every month from
7am to 9am
No appointment necessary

Where: MacNeal Hospital
3249 S Oak Park Avenue, Berwyn, IL 60402
Outpatient Cardiology—Cardiac Rehab Department
708-783-2005

Please note, if the results of the risk assessment score you at Moderate to High Risk for Heart Disease during the screening, you will qualify for a free fasting cholesterol and glucose blood test. For this test, you should be fasting (no food or drink except water/medication for 10-12 hours). If possible, we recommend that you fast before arriving so you can proceed immediately to the brief blood test if your score warrants this additional testing.
