

IMMUNIZATIONS

To protect the health of all students and staff and to curtail the spread of infectious diseases, the Governing Board desires to cooperate with state and local health agencies to encourage immunization of all district students against preventable diseases.

Students entering a district school or child care and development program, or transferring between school campuses, shall present an immunization record which shows at least the month and year of each immunization in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

Each transfer student shall present his/her immunization record certifying that he/she has received all required immunizations currently due before he/she is admitted to school.

A transfer student may be conditionally admitted for up to 30 school days while his/her immunization records are being transferred from the previous school. If these records do not arrive within 30 school days, the student shall present written documentation by a physician, nurse or clinic, showing that the required immunizations were received. If such documentation is not presented, the student shall be excluded from school until immunization requirements are met.
