

TRANSPORTATION SAFETY AND EMERGENCIES

Transportation Safety Plan

The Superintendent or designee shall develop a transportation safety plan which includes all of the following:

A copy of the plan shall be kept at each school site and made available upon request to the California Highway Patrol.

School buses and school student activity buses shall not be operated whenever the number of passengers exceeds bus seating capacity, except when necessary in emergency situations which require that students be moved immediately to ensure their safety.

The Superintendent or designee may place a notice at bus entrances that warns against unauthorized entry. The driver or another school official may order any person to disembark if that person enters a bus without prior authorization and has intent to commit a crime.

Each school bus shall be equipped with at least one fire extinguisher located in the driver's compartment which meets the standards specified in law.
