

## Concordia Parish School Board Photography/Video Permission

Throughout the school year, we expect to photograph and video the many learning experiences in our school system. The videos and photographs will be used in teacher training, as well as for publicity in various media publications and news productions. We would like to have your permission in order to submit photographs and videos of your child to area newspapers, the Concordia Parish School District website, and news stations.

I'm sure your child will be happy to see his or her photo in publications. Please complete the form below and return it to your child's teacher and/or coach as soon as possible.

I grant my permission for my child,

---

(Child's name)

to have photographs and videos taken of him/her while a student in the Concordia Parish School System. I understand that these videos and photographs may be used for a variety of teacher training sessions, as well as possibly be submitted to media publications, district websites, and television stations. I further understand that my child's name, grade, and school may also be released and that students participating in athletic programs may have their number, position, height, and weight mentioned in media publications, district websites, and/or television and radio outlets.
