

TRANSPORTATION

Means of Transportation

To provide transportation services, the Governing Board may purchase, rent or lease vehicles; contract with a common carrier or municipally owned transit system; contract with responsible private parties including the parent/guardian of the student being transported; and/or contract with the County Superintendent of Schools.

In contracting for transportation services, the district shall comply with all applicable laws related to bids and contracts.

In lieu of providing transportation in whole or in part, the district may pay the student's parents/guardians either their actual and necessary expenses in transporting the student or the cost of the student's food and lodging at a place convenient to the school. For other than special education transportation, the minimum distance referenced in AR 3541 must apply. In either case, the amount of the payment shall not exceed the cost that would be incurred by the district to provide for the transportation of the student to and from school.
