School Accountability Report Card

Reported Using Data from the 2011-12 School Year

Published During 2012-13

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at <http://www.cde.ca.gov/ta/ac/sa/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

EdData Partnership Web Site

EdData is a partnership of the CDE, EdSource, and the Fiscal Crisis Management and Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2011-12)

This section provides information about the school, its programs and its goals.

Principal's Message

The purpose of the School Accountability Report Card is to provide parents, community members, staff, and visitors with information about Mammoth Middle School's instructional programs, academic achievement, materials used for this achievement, the facilities which our students have to work with, the quality of the teaching faculty, and much more. The State of California requires that we publish this Report Card each year for the previous year, so that we are held accountable in all these areas.

Our school has a tradition of academic excellence produced in a caring environment and I welcome this opportunity to share information about our 2010-2011 program, plans and our people.

The staff at Mammoth Middle School believes that each child is unique and deserving of a rich educational environment. We believe that every student can succeed, that every child can learn and every student can accomplish whatever he/she puts his/her heart and mind to. Each student has access to a rigorous core curriculum in language arts, mathematics, science, and social science. The hard working faculty is both skilled and dedicated to the success of our students. We are fortunate to have many experienced and knowledgeable teachers, eager to make a difference for our students. We believe in a student-centered approach to learning, which provides a climate in which a child's social, emotional, and intellectual needs are equally important. All students have special talents, and are given the opportunities to develop those talents.

Parents and the community play an extremely important role in the school. Understanding the school's educational programs, student achievement, and curricular offerings can assist both school and the community in making needed improvements. We hope this Report Card gives all who read it insights into what our school is really all about.

Mission Statement

The mission of Mammoth Middle School is to inspire, educate, and empower our community's future leaders by providing a healthy, safe, and respectful environment which fosters the students' academic, social, and emotional growth.

III. School Climate

School Safety Plan (School Year 2011-12)

This section provides information about the school’s comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

Safety of students and staff is a primary concern of Mammoth Middle School. The school is in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. The school’s disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire and earthquake drills are conducted on a regular basis.

All visitors must sign in at the front office and sign out upon leaving. During lunch, breaks, and before and after school, assigned staff members supervise students and school grounds, including the cafeteria and playgrounds, to ensure a safe and orderly environment.

In 1998, the Comprehensive Safety Plan was developed by the district in consultation with local law enforcement in order to comply with Senate Bill 187 of 1997. The plan provides students and staff a means to ensure a safe and orderly learning environment.

Components of the Comprehensive Safety Plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe ingress and egress from school, sexual harassment policies, and dress code guidelines.

Mammoth Middle School reviews the plan each year and updates it as needed. The plan was last updated and reviewed with school staff in February 2012. An updated copy of the plan will be available to the public at the school and district offices.

IV. School Facilities

School Facility Conditions and Planned Improvements (School Year 2012-13)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
- Description of any planned or recently completed facility improvements
- The year and month in which the data were collected
- Description of any needed maintenance to ensure good repair

Year and month in which data were collected: 10/30/2012

Built in 2003, Mammoth Middle School is situated on nine acres. The school buildings span 41,800 square feet, consisting of classrooms, a library, a multipurpose room, administrative offices, restrooms, and storage rooms. The facility strongly supports teaching and learning through its ample classroom and playground space. The chart displays the results of the most recent facilities inspection.

Maintenance and Repair

Safety concerns are the number one priority of Maintenance and Operations. District maintenance supervisors are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The district governing board has adopted cleaning standards for all schools in the district. All schools are cleaned daily. A summary of these standards is available at the school office or at the district office. The site administration team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

VII. Curriculum and Instructional Materials

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2012-13)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Year and month in which data were collected:

Mammoth Unified School District sets a high priority upon ensuring that sufficient and current textbooks and materials are available to support the school's instructional program. Mammoth Unified School District held a public hearing on September 22, 2011, and determined that each school within the district has sufficient and good quality textbooks, instructional materials, or science lab equipment, pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects, Visual and Performing Arts, Health, and Foreign Language for use in the classroom and to take home. All textbooks and instructional materials used within the district are aligned with the California State Content Standards and Frameworks. Mammoth Unified School District follows the state board of education's six-year adoption cycle for core content materials and the eight-year cycle for textbook adoptions in foreign language, visual and performing arts, and health. District textbook review and adoption activities occur the year following the state's adoption.

The textbook adoption process begins with the district Curriculum Committee consisting of administrators and teachers. The Committee identifies key elements to consider in the adoption decision-making process, establishes selection criteria based on state standards, reviews instructional materials on the state list, and makes recommendations to the governing board for final adoption. The committee examines each program and selects programs to be piloted. Recommended programs are available at the school sites for teacher and parent preview. The feedback provided by teachers and parents becomes the basis for the recommendations to the board for final adoption. The table displays information collected in February 2012 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

| Core Curriculum Area | Textbooks and Instructional Materials/ Year of Adoption | From Most Recent Adoption? | Percent of Students Lacking Own Assigned Copy |

IX. Student Performance

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at <http://star.cde.ca.gov>.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The **similar schools API rank** reflects how a school compares to 100 statistically matched “similar schools.” A similar schools rank of 1 means that the school’s academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school’s academic performance is better than at least 90 of the 100 similar schools.

| API Rank | 2009 | 2010 | 2011 |
|-----------------|------|------|------|
| Statewide | 7 | 7 | 6 |
| Similar Schools | 8 | 9 | 8 |

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) webpage at <http://www.cde.ca.gov/ta/ac/ay/>.

Adequate Yearly Progress Overall and by Criteria (School Year 2011-12)

| Made AYP Overall | No | No |
| Met Participation Rate: English-Language Arts | Yes | Yes |

Federal Intervention Program (School Year 2012-13)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: <http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp>.

Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period. Questions that may be answered include:

- What are the primary/major areas of focus for staff development and specifically how were they selected? For example, were student achievement data used to determine the need for professional development in reading instruction?
- What are the methods by which professional development is delivered (e.g., after school workshops, conference attendance, individual mentoring, etc.)?
- How are teachers supported during implementation (e.g., through in-class coaching, teacher-principal meetings, student performance, and data reporting, etc.)?

All training and curriculum development at Mammoth Middle School revolves around the California State Content Standards and Frameworks. Teachers align classroom curriculum to ensure that all students either meet or exceed state proficiency levels.

Staff members build teaching skills and concepts through participation in professional conferences, district sponsored inservices, and workshops throughout the year. The district provides one buy-back professional development day annually where teachers are offered a variety of professional growth opportunities in curriculum, teaching strategies, and methodologies. Six minimum days are also used for districtwide staff development.
