

INTERNS

University Internship Program

Persons employed through a university internship program are authorized to provide the same service at the same levels as authorized by the regular credential.

The Superintendent or designee shall seek the assistance of the college or university in coordinating the intern's program.

The Superintendent or designee may enter into agreements with the college or university to employ competent and qualified staff members to supervise and guide interns as they pursue their district responsibilities.

A university intern may choose an early completion option leading to a five-year preliminary credential by demonstrating competence through assessments and observations in accordance with Education Code 44468.

Before an intern enrolls in any college or university program to renew the internship credential, the Superintendent or designee shall counsel with the intern and a program for the first and subsequent renewals shall be planned.
