

**COMPREHENSIVE SAFETY PLAN**

The Governing Board recognizes that students and staff have the right to a safe and secure campus where they are free from physical and psychological harm. The Board is fully committed to maximizing school safety and to creating a positive learning environment that teaches strategies for violence prevention and emphasizes high expectations for student conduct, responsible behavior, and respect for others.

The school site council at each district school shall write and develop a comprehensive school safety plan relevant to the needs and resources of that particular school.

The school safety plan shall take into account the school's staffing, available resources and building design, as well as other factors unique to the site.

Each school shall review and update its safety plan by March 1 of each year. New school campuses shall develop a safety plan within one year of initiating operations, which shall be approved by the Board.

The Superintendent or designee shall ensure that an updated file of all safety-related plans and materials is readily available for inspection by the public.

By October 15 of each year, the Superintendent or designee shall notify the California Department of Education of any schools that have not complied with the requirements of Education Code 32281.
